

THE LEHI BANNER.

VOL. X.

LEHI, UTAH, THURSDAY, MARCH 22, 1900.

NO. 41.

Mr. Myrick chairman of the League of Domestic Producers has the following to say about the Tariff bill for Porto Rico in regard to sugar: "Such policy is best for the country. For instance, under reciprocity Porto Rico increased her consumption of flour only 15 per cents per capital yearly for her 1,000,000 people, while the best sugar industry, if developed only enough for local consumption, would pay \$2.50 into the pockets of the people of Minnesota and the Northwest. Best sugar industry is now so far developed in New York, Michigan, Ohio, Wisconsin, Minnesota, Virginia, Illinois, Iowa, South Dakota, Nebraska, Colorado, Utah, New Mexico, Washington, Oregon and California that to sacrifice it to tropical trusts would be a crime. Today, therefore, the American farmer says to Congress: 'I have supported protection for other interests; now I want them to support protection for the farm. If sugar, fruit, tobacco, vegetables, etc., are to be admitted free from Porto Rico, Cuba or the Philippines, then it will be free manufactures from England and Europe. If duty on the produce I have to sell are reduced 12 to 20 per cent by reciprocity, then make a like reduction on the manufactures I have to buy. So long as there is protection I want my share of it especially on these things upon which a duty will really protect. Don't subject me to free trade conditions and expect me to vote protection for the other fellow.'

At the Rally on Thursday night Judge King mentioned the name of Mr. Carnegie and stated how much money he had made last year. Since the Judge's remarks there has been quite a little inquiring as to Mr. Carnegie's politics, and several have asked us if we knew. It will be remembered that when Mr. Cleveland was president that Mr. Carnegie got into trouble over the armor plate that he was making for the government. Mr. Cleveland and he fixed it up in some shape and Mr. Carnegie joined the Democratic party and belongs to it yet so far as we know. Here is what Mr. Carnegie made last year. The fight between Carnegie and Frick ought to open the eyes of the "dear workman." The profits for last year were \$21,000,000, and Frick says that for 1900, Carnegie's share alone will be \$24,867,500 or over \$65,000 a day. At \$3 a day, about twice the average wages paid to his workmen, a man would have to work over 200 years to earn as much as Carnegie makes in one day!—Farm and Factory.

The Republican again has a new management N. H. Mix is managing Editor of that paper. Friend Mix will make things lively for Eusebia.

The prompt and careful response to the recent request by the Director of the Census, for information relating to canals and ditches, indicate that the importance and value of a complete and accurate Census of Irrigation are appreciated by those engaged in this branch of agriculture. Director Merriam is very well pleased with the great interest evinced in the work of collecting data, and is confident that with the continued assistance of the irrigators and the press, the present investigation will be a success. The scope of the present inquiry is broad. Its purpose is to determine the present conditions and results of irrigation, and to tabulate the same in such a manner that they may be fully comprehended by every one. Such a work, successfully conducted, will result in bringing about a more complete realization of the fact that the development of irrigation is affecting the prosperity of our nation as well as the progress and stability of many Western States.

Some of our farmers are complaining that there is too much taking of implements from their land in the fields without asking for them. This is a very annoying practice, and fills the farmer with disgust when he goes to his field to work to find his tools or implements gone. In many instances he loses half a day in hunting them up.

The "Confederate Spy," company is an experienced lot of players from Provo who have prepared the play more for entertainment than for profit. Those who have witnessed its rendition in the Garden City speak very highly concerning it.

THE INVENTOR'S HEAD

We are now here

with the wonderful Harness oil of New Life at the Peoples Co-op for a few days. The oil will be sold for 25 per cent less than wholesale that brings it to 1/2 price. It is the very best on shoes, a sole oiled out lasts 2 or 3 not oiled, it is also good for the uppers. Harnesses oiled with the same oil will make it last as long again. Call and see proof of this statement. Bring cans when oil is wanted.

B. Y. A. Notes.

Prof. Brimhall lectured at Spanish Fork March 19, on "Educational Economics."

The Intercollegiate Contest will take place early in May.

Elder Geo. Reynolds lectured Monday morning on physical evidences of the convulsions of nature at the crucifixion of Christ.

President Cliff returned to-day from an official visit to the schools in the central Church school district.

A contest in Athletics was held Saturday. College students vs. Commercial: The College students won the laurels.

Judge John E. Booth delivered an interesting lecture last Thursday night, his subject being, "The trial of Christ from a legal standpoint."

Officers of the Alumni Association met in an executive session last Saturday, to arrange for the annual meeting.

The Normal department was well represented at the Teacher's Institute Saturday.

The Academy students from Lehi are very patriotic both to school and to their town. They have effected an organization for the purpose of aiding each other and to extend a helping hand to any who may need it, also to work in the interest of the school when at home. This organization is to continue as a city during the summer. The officers are: President, Francis Child, Vice Pres., David Hodge, Secretary, Ida Ross, and as executive committee, Francis W. Kirkham, Joseph Anderson, and Amy Sharp. This is the first organization of the kind ever effected in the B. Y. Academy. Our enthusiasm however does not end here, we also have a base ball team with David Hodge as captain. Saturday March 17 they played their first match game with another home team. The game ended 18 to 11 in favor of Lehi.

On Friday the sugar company opened up the pits of the mother bees and found they had kept good through the winter. There will be some where near 180 tons of mother bees planted this season.

Mr. Elisha Peck Jr. has married a new wife.

Mr. D. J. Thurman made a trip to Provo Tuesday.

Admiral Dewey is quite ill with indigestion.

The republicans will hold a rally in the Opera House Thursday March 23 and the Democrats on the 31.

Some persons have been very busy over at the shooting corral of Austin and Webb, they having carried off quite a quantity of lumber.

The little four year old daughter Benjamin of Mr. John J. Thomas fell over a clothes line and broke the bone between the shoulder and collar bone a few days ago. Dr. Stevie was called in on Saturday and set the bone and the little one is doing nicely.

Throat Troubles

"Bardwell, Ky., where I live, is in the extreme western part of the State and only a few miles from Cairo, Ill., where the Ohio empties into the Mississippi River. It may be that throat troubles are common here because of location, but whatever the reason, I find it wise to constantly keep a supply of Acker's English Remedy for Consumption on hand. It is the best thing I ever came across for coughs, colds and throat troubles, and I have used it in my family for years. No doubt here can be depended upon to have a bottle of Acker's English Remedy for Consumption on hand. My wife is suffering with sore throat and difficulty in breathing as soon as she takes a few doses, and she will certainly be well again. I expect to write another letter in a short time saying my wife is cured. For I am 'surely sure' it is what she needs." (Sign.) A. Warr.

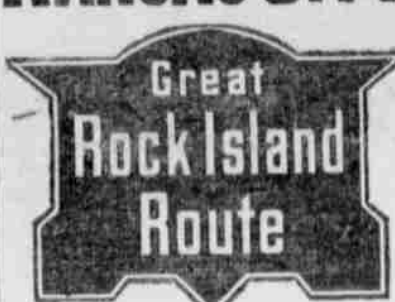

Sold at 25c, 50c, and \$1 a bottle, throughout the United States and Canada; and in England, at 1s, 2s, 2s 6d, and 4s 6d. If you are not satisfied after buying, return the bottle to your druggist, and get your money back.

We authorize the above quotations.

All the fruits and canned goods we have on hand were bought before the advance, we sell them to you cheaper than we can buy them.

Peoples Co-op Institution, Lehi.

NOTICE.

United States Land Office
Salt Lake City, Utah,
December 6, 1899.

To whom it may concern:
Notice is hereby given that the State of Utah has filed in this office a list, No. 22, of lands selected by the said State for the establishment of permanent water reservoirs for irrigating purposes, under Sec. 12 of the Act of Congress, viz:

The east half of the southeast quarter of Section thirty-one, in Township four, south, and of Range two, east, Salt Lake Base and Meridian.

A copy of said list so far as it relates to said tract, by descriptive subdivisions, has been conspicuously posted in this office, for inspection by any person interested, and by the public generally.

Within the next sixty days following the date of this notice, under departmental instructions of November 27, 1899, (23 L. D. 459), protests or contests against the claim of the State to said tract or subdivision above described, on the ground that the same is more valuable for mineral than for agricultural purposes, will be received and noted for report to the General Land Office at Washington, D. C., failure to do so will be considered sufficient evidence of the non-mineral character of said tract, and the selection thereof, being otherwise free from objection, will be recommended for approval.

FRANK D. HOBBS, Register.

Geo. A. Smith, Receiver.
